ADDITIONAL INFORMATION:

I love being a part of great team and enjoy the satisfaction that comes from knowing I contribute to the success of an organization. I enjoy problem solving and working through challenges to complete a project.

I have extensive experience with HTML, CSS, Javascript, Flash, Actionscript, Photoshop, and Illustrator, and have familiarity with C++. I've worked on several personal, small business, and e-commerce web sites. I have done development and design work for HP, Intel, Microsoft, and other fortune 500 companies. I have developed computer games as well.

I am currently enrolled at BYU-Idaho working to finish my bachelor degree in Software Engineering. My academic career includes studies in education, graphic design, and software engineering.
